As you may be aware, cuts to education are having a significant effect in schools locally and across the country and this has led to a national parent-led campaign called Fair Funding For All Schools. The aim of the campaign is to defeat, delay or disrupt government attempts to cut funding for schools in England that are threatened through a combination of real term spending cuts and the implementation of a new National Funding Formula.

The money following your child into schools is going down. This will mean:

- Increased class sizes
- Loss of teaching and support staff
- Fewer subject choices
- Fewer resources and out of school activities

What can YOU do to fight cuts to education funding?

- **Visit the website www.schoolcuts.org.uk to check how the cuts will affect your school**
 - Input your school name or postcode to find out how much your school will be affected.
 - Immediately below the information about your school, there is a link which enables you to send a direct email to each of the candidates standing in the general election on 8th June in your area.
