

Rounding in a Row

You will need 2 players. Each member will roll a die 3 times to create a 3-digit number. Round the number to the nearest 100. If the rounded number is on your number board, you can place a counter over it. The first person to get 4 counters in a row wins!

100	300	600	500	700	300	200
900	200	200	800	600	0	100
1000	900	300	500	500	700	1000
1000	400	800	400	300	100	900
100	600	100	100	500	1000	800
0	700	0	200	200	600	400

Rounding in a Row

You will need 2 players. Each member will roll a die 4 times to create a 4-digit number. Round the number to the nearest 1000. If the rounded number is on your number board, you can place a counter over it. The first person to get 4 counters in a row wins!
